

A 3D sculpture of the word 'PETR' is constructed from numerous interlocking metal rings, possibly brass or steel, which are arranged to form the letters. The sculpture is set against a dark, reflective background. The letters are thick and have a complex, textured appearance due to the overlapping rings.

P E T R

The background of the image is a dark, textured surface covered with numerous small, blue, three-dimensional architectural models. Each model is a complex, multi-faceted star or cross shape, resembling a stylized building or a mechanical component. They are arranged in a somewhat scattered pattern, with some in the foreground and others receding into the background. The lighting is dramatic, coming from the side, which creates strong highlights on the blue surfaces and deep shadows on the dark background, emphasizing the geometric forms.
